PROFESSIONAL SUMMARY

Junior Software Developer with a Full Stack profile (React Native, C#, .NET Core, Azure, PostgreSQL) and production experience integrating Artificial Intelligence APIs. Creator of NutriFlow, an end-to-end multiplatform solution featuring a layered backend architecture, REST API, automated cloud infrastructure, and a 12-screen mobile app. B2 English level certified by Cambridge Assessment English. Focused on problem-solving, strong development practices, and ready to join agile teams immediately.

EXPERIENCE AND DEVELOPMENT PROJECTS

Full Stack and Mobile Developer (Capstone Project / Real Client)
NutriFlow | *Universidad ORT Uruguay*
February 2026 - Present
Stack: React Native, C#, .NET, Azure, PostgreSQL, Gemini API, GitHub Actions

- Designed and integrated the Gemini API (LLM) for automatic nutritional analysis using computer vision and NLP, reducing manual data entry by 70% and cutting meal-logging time from 3 minutes to under 30 seconds.
- Built 12 native screens in React Native (iOS and Android) implementing tab navigation, JWT-based authentication, REST API consumption, and global state management via Context API.
- Designed and implemented the backend REST API in C# (.NET) using a clean layered architecture (Controller, Service, Repository) covering user management, nutritional tracking, and metrics.
- Designed, modeled, and optimized the PostgreSQL relational database, including normalized schemas, strategic indexing, and SQL query optimization to reduce response times.
- Configured cloud infrastructure on Azure (Azure App Service and Azure Database for PostgreSQL), setting up continuous integration and deployment (CI/CD) pipelines with GitHub Actions.
- Collaborated within a development team under Scrum methodology, participating in weekly sprints, daily standups, and writing complete technical documentation across the software lifecycle.

EDUCATION

Information Technology Analyst (Analista en Tecnologias de la Informacion)
Universidad ORT Uruguay | March 2023 - December 2026 (In progress - final semester)

- Intermediate credential earned: Web Programmer (Programador Web)

CERTIFICATIONS

B2 First Certificate in English (FCE) - Cambridge Assessment English (2025)
Professional-level proficiency for technical communication, meetings with remote and international teams, and documentation.

GeneXus 18 Junior Analyst - GeneXus
Enterprise application development on Low-Code platforms.

TECHNICAL SKILLS

Mobile and Frontend Development: React Native, JavaScript (ES6+), HTML5, CSS3, Context API, Expo
Backend Development: C#, .NET Core, RESTful APIs, Layered Architecture
Databases: PostgreSQL, SQL, Relational Design and Modeling (UML), Query Optimization
Cloud and DevOps: Microsoft Azure (App Service, Azure Database), GitHub Actions, CI/CD, Git, GitHub
Artificial Intelligence: Gemini API, Prompt Engineering, LLM Integration in Apps
Methodologies and Tools: Scrum, Technical Documentation, GeneXus 18
Languages: Spanish (Native), English (B2 First Certificate - Cambridge)
